Vicky,

I have uploaded all of the information for Soldier, Banning, and Dugout from the pipeline into the database. A report is attached.

As a reminder, according to parameters set by the assigned hydrologist, you are still missing the flow, pH, specific conductivity, and dissolved oxygen information for the 10/12/05 samples at DC-1, and DC-2.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.
Senior Reclamation Hydrologist

Dana, with the samples currently in the pipeline, the fourth quarter data entry should be complete. Once you get it loaded will you let me know if anything is missing. Thanks, Vicky
